

**Half Yearly Compliance Report****2025****01 Jun(01 Oct - 31 Mar)****Acknowledgement**

<b>Proposal Name</b>	MELLACHERUVU LIMESTONE MINE (141.644 Ha; 1.95 MTPA) OF M/s. MY HOME INDUSTRIES PRIVATE LIMITED LOCATED AT MELLACERUVU VILLAGE & MANDAL , SURYAPET DISTRICT.		
<b>Name of Entity / Corporate Office</b>	MY HOME INDUSTRIES PRIVATE LIMITED		
<b>Village(s)</b>	N/A		
<b>District</b>	SURYAPET		
<b>Proposal No.</b>	A/TG/MIN/26472/2013	<b>Category</b>	Non-Coal Mining
<b>Plot / Survey / Khasra No.</b>	N/A	<b>Sub-District</b>	N/A
<b>State</b>	TELANGANA	<b>Entity's PAN</b>	*****9480C
<b>MoEF File No.</b>	J-11015/113/2013- IA II (M)	<b>Entity name as per PAN</b>	MY HOME INDUSTRIES PRIVATE LIMITED

**Compliance Reporting Details**

<b>Reporting Year</b>	2025
<b>Remarks (if any)</b>	Enclosed Six Monthly Environmental Clearance Compliance status report for the period October'2024 to March 2025 of our MELLACHERUVU LIMESTONE MINE.
<b>Reporting Period</b>	01 Jun(01 Oct - 31 Mar)

**Details of Production and Project Area**

<b>Name of Entity / Corporate Office</b>	MY HOME INDUSTRIES PRIVATE LIMITED	
	<b>Project Area as per EC Granted</b>	<b>Actual Project Area in Possession</b>
Private	0	0
Revenue Land	0	0
Forest	0	0
Others	141.644	141.644
<b>Total</b>	<b>141.644</b>	<b>141.644</b>

**Production Capacity**

Sr. no	Product Name	units	Valid Upto	Capacity	Production last year	Capacity as per CTO
1	LIMESTONE	Million Tons per Annum (MTPA)	30/06/2026	1.95	1.4950	1.95

## Conditions

### Specific Conditions

Sr.No.	Condition Type	Condition Details
1	Statutory compliance	The Project will implement and comply with all applicable safeguard measures as provided in OM No. Z-11013/57/2014-IA.II (M) dated 29th October, 2014.
<b>PPs Submission:</b> Being Complied We have implemented and complying with the applicable safeguard measures provided in the OM.		Date: 25/04/2025
2	Statutory compliance	The Project proponent shall obtain Consent to Establish and Consent to Operate from the State Pollution Control Board and effectively implement all the conditions stipulated therein.
<b>PPs Submission:</b> Complied Consent to Operate is obtained (renewed) from the SPCB vide order No. 210522983054, Dt: 23.07.2021 valid up to 30.06.2026 and implemented the stipulated conditions.		Date: 25/04/2025
3	Statutory compliance	The Mining Operations shall be restricted to above ground water table and it should not intersect the ground water table.
<b>PPs Submission:</b> Complied As amended in EC vide Order No. SEIAA/TS/OL/SRPT-45/2022- Dt: 21.04.2023. III. (a) Point No (iii) of (A) Specific Conditions shall be read as following: "The mining operation is permitted below the ground water table in the mine lease area subject to implementation of conditions by the proponent in the NOC vide Ir. dt. 31.10.2022 of Ground Water Department, Telangana State, to maintain safe ground water regime and also protect the rights and interest of local habitation and Environment".		Date: 25/04/2025
4	WATER QUALITY MONITORING AND PRESERVATION	The loose solids should be kept separately from flowing water and flow of effluents to nearby areas outside the lease hold shall be prevented. The paved drains along with arrangements for Over Burden Dumps and their drainage may clearly depicted on a contoured map of the mining area.
<b>PPs Submission:</b> Complied There is no topsoil or Over Burden generation anticipated from this mine. Hence there is no topsoil or over burden dumps existing in the mine. The balance area in the mining lease area is out-cropped.		Date: 25/04/2025
5	MINING PLAN	The project proponent shall ensure that no natural watercourse and /or water resources shall be obstructed due to any mining operations. Adequate measures shall be taken for conservation and protection of the 1st and 2nd order streams, emanating or passing through the mine lease during the course of mining operation.
<b>PPs Submission:</b> Complied We are ensuring that no natural watercourse and /or water resources shall be obstructed due to any mining operations.		Date: 25/04/2025

6	LAND RECLAMATION	Topsoil, if any shall temporally be stored at earmarked site(s) only and it should not be kept unutilized for long. The topsoil shall be used for land reclamation and plantation.
<b>PPs Submission:</b> Complied There is no topsoil generation anticipated from this mine. Hence there are no temporary dumps for topsoil existing in the mine. The balance area in the mining lease area is out-cropped.		Date: 25/04/2025
7	WATER QUALITY MONITORING AND PRESERVATION	Appropriate safeguard measures shall be taken to ensure stability and drainage of dumps so that no solid waste/ debris flow into nallah.
<b>PPs Submission:</b> Complied There are no OB dumps in the mining lease area. However, measures are taken to ensure no solid waste / debris flow into nearby nallah.		Date: 25/04/2025
8	MINING PLAN	The over burden (OB) generated during the mining operation shall be stacked at earmarked dump site(s) only and it should not be kept active for a long period of time and their phase-wise stabilization shall be carried out. Proper terracing of OB dumps(s) shall be carried out. The over burden dumps(s) shall be scientifically vegetated with suitable native species to prevent erosion and surface run off. In critical areas, use of geo textiles shall be undertaken for stabilization of the dumps. Monitoring and management of rehabilitated area should continue until the vegetation becomes self-sustaining. Compliance status should be submitted to the MoEF&CC at its Regional Office Chennai on six monthly basis.
<b>PPs Submission:</b> Complied There is no topsoil or Over Burden generation anticipated from this mine. Hence there is no topsoil or over burden dumps existing in the mine. The balance area in the mining lease area is out-cropped.		Date: 25/04/2025
9	MINING PLAN	Catch drains and siltation ponds of appropriate size shall be constructed working pit. Temporary OB and mineral dumps to arrest flow of silt and sediment directly into adjoining River and other water bodies. The water so collected should be utilized for watering the mine area, roads, green belt development etc. The drains should be regularly desilted particularly after the monsoon and maintained properly.
<b>PPs Submission:</b> Being Complied A bund is formed all along the lease boundary. The bund act as a barrier to arrest runoff from the mine. Runoff is collected in mine sump which acts as sedimentation tank. Collected water is pumped out for utilizing in different activities such as Water sprinkling on the haul roads, dust suppression, muck pile wetting, and greenbelt development and for captive power plant requirement. The sump water is also pumped to pond located at NE corner of cement plant, the pond will act as a ground water recharge structure.		Date: 25/04/2025
10	MINING PLAN	Dimension of retaining wall at toe of OB dump(s) and OB benches within the mine to check run-off and siltation should be based on the rainfall data.
<b>PPs Submission:</b> Complied There is no generation of OB in subject mine. There are no OB dumps in the mining lease area.		Date: 25/04/2025
11	GREENBELT	Plantation shall be raised in a specified area including a 7.5 m wide green belt in the safety Zone around the mining lease, OB Dumps (s), along the roads, etc. by planting the native species in consultation with the local DFO / Agriculture Department. In addition, Plantation shall also be raised in the backfilled and reclaimed area and around

		water body. The density of the tress should be around 1500 plants per Ha.
<p><b>PPs Submission: Complied</b> Plantation has been raised in a specified area including a 7.5 m wide green belt in the safety Zone around the mining lease and along the roads, Greenbelt is being developed in a phased manner with native plant species. Overall 18.81 Ha. Developed with greenbelt 22,414 Nos. Saplings as on 31.03.2025. Photographs of greenbelt are presented in Annexure 2.</p>		<p>Date: 25/04/2025</p>
12	WATER QUALITY MONITORING AND PRESERVATION	Effective safeguard measures, such as regular water sprinkling shall be carried out in critical areas prone to air pollution and having high levels of particulate matter such as around crushing and screening plant, loading and unloading point and shall transfer points. Extensive water sprinkling shall be carried out on haul roads. It should be ensured that the Ambient Air Quality parameters conform to the norms prescribed by Central Pollution Control Board in this regard.
<p><b>PPs Submission: Being Complied</b> Dry fog system has been installed for Water spraying at crusher dump hopper and bag filters are provided at all transfer points to control fugitive emissions. Crusher is being operated with bag filter. Fixed Water sprinkler system is provided all along the haul roads, Water sprinkler system provided around crushing and screening plant, loading and unloading point and all transfer points. Extensive water sprinkling is being carried out on haul roads. Photos showing dust control measures are presented in Annexure 3.</p>		<p>Date: 25/04/2025</p>
13	WATER QUALITY MONITORING AND PRESERVATION	Regular monitoring of water quality upstream and downstream of perennial nallahs falling in the impact zone shall be carried out and record of monitoring data should be maintained and submitted to Ministry of Environment, Forests and Climate Change, its regional office, Chennai, Central Groundwater Authority, Regional Director, Central Groundwater Board, State Pollution Control Board and Central Pollution Control Board.
<p><b>PPs Submission: Complied</b> There are no perennial nallahs that flow through Mellacheruvu Mine Lease area.</p>		<p>Date: 25/04/2025</p>
14	WATER QUALITY MONITORING AND PRESERVATION	Appropriate measures shall be taken for treatment of the upper catchment of the mine lease area.
<p><b>PPs Submission: Being Complied</b> Mine sump acts as settling tank and helps in recharging the ground water.</p>		<p>Date: 25/04/2025</p>
15	WATER QUALITY MONITORING AND PRESERVATION	The project authority should implement suitable conservation measures to augment ground water resources in the area in consultation with Regional Director, Central Groundwater Board.
<p><b>PPs Submission: Complied</b> The present mine sump act as a rain water harvesting structure to augment ground water resources.</p>		<p>Date: 25/04/2025</p>
16	WATER QUALITY MONITORING AND PRESERVATION	Regular monitoring of ground water level and quality should be carried out in and around mine lease area by establishing a network of existing wells and Installing new piezometers during mining operation. The periodic monitoring [(at least 4 times a year in a year pre-monsoon (April/May), monsoon (August), post-monsoon (November) and winter (January); once in each season)]. Shall be carried out in consultation with the State Ground water Board/Central Ground water Authority and the data thus collected may be sent to the regularly to the MoEF&CC and its Regional office Chennai, the

		Central Ground Water Authority and the Regional Director, Central Groundwater Board. If at any stage, it is observed that the groundwater table is getting depleted due to the mining activity; necessary corrective measures shall be carried out.
<p><b>PPs Submission: Being Complied</b> Seasonal monitoring of ground water level and quality is carried out. Total 9 nos. Piezometers were established for ground water quality and levels monitoring is being done through recognized MOEFCC and NABL Accredited laboratory of M/s. Lawn Enviro Private Limited. Data of the same being submitted to CGWA and CGWB quarterly and MoEFCC, IRO, Hyderabad along with six monthly compliance report. Data of the same is presented in Annexure 4.</p>		Date: 25/04/2025
17	Statutory compliance	The project proponent shall obtain necessary prior permission of the competent authorities for drawl of requisite quantity of water required for the project.
<p><b>PPs Submission: Complied</b> As amended in EC vide Order No. SEIAA/TS/OL/SRPT-45/2022- Dt:21.04.2023 III. (a) Point No (iii) of (A) Specific Conditions shall be read as following: "The mining operation is permitted below the ground water table in the mine lease area subject to implementation of conditions by the proponent in the NOC vide Ir. dt. 31.10.2022 of Ground Water Department, Telangana State, to maintain safe ground water regime and also protect the rights and interest of local habitation and Environment".</p>		Date: 25/04/2025
18	MINING PLAN	Suitable rainwater harvesting measures on long term basis shall be planned and implemented in consultation with the Regional Director, Central Groundwater Board.
<p><b>PPs Submission: Being Complied</b> The present mine sump act as a rain water harvesting structure to augment ground water resources.</p>		Date: 25/04/2025
19	MINING PLAN	Appropriate mitigative measures should be taken to prevent pollution of nearby river in consultation with the State Pollution Control Board.
<p><b>PPs Submission: Complied</b> There is no river near to the Mellacheruvu Limestone Mine lease area. Nearest river to the subject mine is Krishna River at a distance of 15 Kms.</p>		Date: 25/04/2025
20	AIR QUALITY MONITORING AND PRESERVATION	Vehicular emissions should be kept under control and regularly monitored. Measures shall be taken for maintenance of Vehicles used in mining operations and in transportation of mineral. The mineral transportation shall be carried out through the covered trucks only and the vehicles carrying the mineral shall not be overloaded.
<p><b>PPs Submission: Being Complied</b> Vehicles are being well maintained as per the scheduled maintenance. Outside agencies are utilized for maintenance of vehicles. Overloading of vehicles is strictly prohibited and continuous water sprinkling is being practiced during transportation of mineral to crusher.</p>		Date: 25/04/2025
21	Risk Mitigation and Disaster Management	Controlled blasting should be practiced. The mitigative measures for control of ground vibrations and to arrest fly rocks and boulders should be implemented.
<p><b>PPs Submission: Being Complied</b> Blasting is carried out during day time only as per the recommendations of DGMS. Ground vibrations and fly rock are being well controlled by using non-el bottom initiation detonators.</p>		Date: 25/04/2025
22	AIR QUALITY	Drills shall either be operated with dust extractors or equipped with

	MONITORING AND PRESERVATION	water injection system.
<b>PPs Submission: Being Complied</b> Wet drilling by water injection system is practiced to control the dust emission.		Date: 25/04/2025
23	AIR QUALITY MONITORING AND PRESERVATION	Mineral handling areas shall be provided with the adequate number of high efficiency dust extraction system. Loading and unloading areas including all the transfer points should also have efficient dust control arrangements. These should be properly maintained and operated.
<b>PPs Submission: Being Complied</b> Wet drilling is practiced and water spraying is done on haul roads. Water spraying arrangement is provided at crusher dump hopper, water sprinklers are provided at loading and unloading points to control fugitive emissions. Fixed water sprinklers are installed along haul roads where vehicular movement is comparatively high to abate dust generated from vehicular movement.		Date: 25/04/2025
24	WATER QUALITY MONITORING AND PRESERVATION	Sewage treatment plant shall be installed for the colony. ETP shall also be provided for the workshop and wastewater generated during the mining operation.
<b>PPs Submission: Being Complied</b> Sewage Treatment Plant of 400 KLD is in operation in the colony. No waste water is generated during mining operations. Waste water generated from vehicle washings are routed through Oil and Grease separator then followed by sedimentation trap and then to on land for vegetation. Photographs of STP presented in Annexure 5.		Date: 25/04/2025
25	Human Health Environment	Pre-placement medical examination and periodical medical examination of the workers engaged in the project shall be carried out and records maintained. For the purpose, schedule of health examination of the workers should be drawn and followed accordingly
<b>PPs Submission: Being Complied</b> Pre-employment medical examination and periodical occupational health surveillance programme for the workers is being undertaken. Annual medical check-up conducted for all employees (456 nos.) by external diagnostic laboratory M/s. Aditya diagnostics, Hyderabad on 15th - 17th Oct, 2024. The records of the same are being maintained.		Date: 25/04/2025
26	Human Health Environment	Regular monitoring of free silica in the dust will be carried out and records maintained. It shall be ensured that the levels of silica do not exceed the prescribed limits. The workers will be provided with personal protective measures to guard against inhaling silica dust.
<b>PPs Submission: Being Complied</b> Free silica is monitored on the regular basis. Reports are being maintained. Free silica content in the dust is well below the prescribed limits. Mandatory Safety PPE are provided as per company policy personnel working in dusty areas.		Date: 25/04/2025
27	Human Health Environment	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structure to be removed after the completion of the project.
<b>PPs Submission: Complied</b> Not applicable, It is subjected to mine lease		Date: 25/04/2025

28	MISCELLANEOUS	The project proponent should take all precautionary measures during mining operation for conservation and protection of endangered flora as well as endangered fauna in the study area. Action plan for conservation of flora and fauna shall be prepared and implemented in consultation with the state Forest and Wildlife Department. Necessary allocation of funds for implementation of the conservation plan shall be made and the funds so allocated shall be included in the project cost. Copy of action plan may be submitted to the ministry and its regional office at Chennai within 3 months.
<b>PPs Submission:</b> Complied No endangered flora and fauna is present in the project area. Details has been submitted letter vide no. MHIL/ENV-HO/2015-16/0022 dated 01-08-2015 along with the certificate issued by the Forest Department, Nalgonda.		Date: 25/04/2025
29	AIR QUALITY MONITORING AND PRESERVATION	The critical parameters such as RSPM (Particulate matter with size less than 10 micron i.e., PM10) and NOx in the ambient air within the impact zone, peak particle velocity at 300m distance or within the nearest habitation, whichever is closer shall be monitored periodically. Further, quality of discharged water shall also be monitored (TDS, DO, pH and Total Suspended Solids (TSS)). The monitored data shall be uploaded on the website of the company as well as displayed on a display board at the project site at a suitable location near the main gate of the company in public domain. The Circular No.J-20012/1/2006-IA.II (M) dated 27.05.2009 issued by MoEF&CC, which is available on the website of the ministry www.envfor.nic.in shall also refer in this regard for its compliance.
<b>PPs Submission:</b> Being Complied All applicable critical parameters, mine sump water quality parameters monitored monthly. and the reports of the same are uploaded in our company website: www.mahacement.com/environment/		Date: 25/04/2025
30	MINING PLAN	A final mine closure Plan along with details of corpus fund should be submitted to the MoEF&CC 5 years in advance of final mine closure of approval.
<b>PPs Submission:</b> Agreed to Comply The validity period of EC for mine lease area is 21.07.2045, Presently mine is active. Mine decommissioning plan will be submitted 5 years in advance to MoEF&CC.		Date: 25/04/2025
31	PUBLIC HEARING	The project proponent shall undertake all the commitments made during the public hearing and effectively address the concerns raised by the locals, in the public hearing as well as during consideration of the project, while implementing the project.
<b>PPs Submission:</b> Complied Commitments made during Public Hearing (PH) are being implemented in consultation local body based on local needs requirement. Year wise expenditure under Community development activities at nearby villages is given below. Year Total amount (Lakhs.) 2021 - 22 104.08 2022 - 23 141.28 2023 - 24 107.63 2024-25 99.44		Date: 21/05/2025
<b>General Conditions</b>		
Sr.No.	Condition Type	Condition Details
1	Statutory compliance	No change in mining technology and scope of working should be made without prior approval of the Ministry of Environment, Forests & Climate Change.

<p><b>PPs Submission: Being Complied</b>  Opencast and fully mechanized mining method is adopted. Prior approval will be obtained from MoEFCC if there is any change in mining technology and scope of working.</p>		<p>Date:  25/04/2025</p>
2	Statutory compliance	No change in the calendar plan including excavation, quantum of mineral limestone and waste should be made.
<p><b>PPs Submission: Being Complied</b>  There is no change in the calendar plan. Limestone production details of last 5 years as follows :  Year Proposed (MTPA) Achieved (MTPA) 2019 - 20 1.95 1.490 2020 - 21 1.95 1.150 2021 - 22 1.95 1.480 2022 - 23 1.95 1.616 2023 - 24 1.95 1.495 2024 - 25 1.95 0.562</p>		<p>Date:  25/04/2025</p>
3	AIR QUALITY MONITORING AND PRESERVATION	<p>Four ambient air quality-monitoring stations should be established in the core zone as well as in the buffer zone for RSPM (Particulate Matter with size &lt;10 microns i.e., PM10) and NOx Monitoring. Location of the stations should be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring Should be undertaken in consultation with the State Pollution Control Board.</p>
<p><b>PPs Submission: Being Complied</b>  Ambient air quality monitoring is done at 8 locations in the core zone as well as buffer zone covering all mine leases based on the meteorological data. Ambient air quality is being monitored through MoEFCC recognized environmental laboratory of M/s. Lawn Enviro Private Limited. Ambient air quality monitoring data for period Oct 24-Mar 25 is presented in Annexure-6.</p>		<p>Date:  25/04/2025</p>
4	AIR QUALITY MONITORING AND PRESERVATION	Data on ambient air RSPM (Particulate Matter with size less than 10 microns i.e., PM10) and NOx should be regularly submitted to the MoEF&CC including its Regional Office located at Chennai and the State Pollution Control Board / Central Pollution Control Board once in six months.
<p><b>PPs Submission: Being Complied</b>  Ambient Air Quality monitoring Stations to monitor PM10, PM2.5, SO2 and NOx. Reports are submitted /uploaded in Parivesh Portal as per MoEFCC OM dt 14.06.2022 and also to TGPCB once in six months. Ambient air quality monitoring data for period Oct 24-Mar 25 is presented in Annexure 6.</p>		<p>Date:  25/04/2025</p>
5	AIR QUALITY MONITORING AND PRESERVATION	Fugitive dust emissions from all the sources should controlled regularly. Water spraying arrangement in haul roads, loading and un loading and at transfer points should be provided and properly maintained.
<p><b>PPs Submission: Being Complied</b>  Wet drilling is being practiced and water spraying is done on haul roads. Crusher system is provided with bag filter. Dry fog system arrangement is provided at crusher dump hopper and unit bag filters are also provided at all transfer points of this section to control fugitive emissions. Fixed Water sprinkler system is provided along the haul roads. A separate tanker is dedicated for muck pile wetting and water sprinkling at loading points. Photos showing dust control measures implemented are presented in Annexure 3.</p>		<p>Date:  25/04/2025</p>
6	Noise Monitoring & Prevention	Measures should be taken for control of noise levels below 85 dB (A) in the work environment. Workers engaged in operation of HEMM, etc. should be provided with ear plugs / muffs.
<p><b>PPs Submission: Being Complied</b>  Workers exposed to high noise levels are being provided with earplugs and measures are being taken to reduce the ambient noise levels below the standards. Dump truck cabins and other HEMM cabins are made dust/sound proof. Below table showing details of noise levels: Location dB(A) Oct-Dec 25</p>		<p>Date:  25/04/2025</p>

Jan-Mar 25 1. LS Apron Feeder 77.50 79.10 2. Drilling Point 81.40 80.60 3. Shovel Point 73.10 76.20 4. Dumper Cabin 75.30 73.80 5. Loading Area 80.90 78.40		
7	<b>WATER QUALITY MONITORING AND PRESERVATION</b>	Industrial wastewater (workshop and wastewater from the mine) should be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May, 1993 and 31st December, 1993 or as amended from time to time. Oil and grease trap should be installed before discharge of workshop effluents
<b>PPs Submission: Being Complied</b> There is no generation of waste water in limestone mining. The wastewater generated from vehicle washings are routed through Oil and Grease separator then followed by sedimentation trap and finally on to land. For domestic wastewater i.e., toilet water goes to septic tank which is connected to soak pit. Photo(s) of vehicle washing system is depicted in Annexure-7.		Date: 25/04/2025
8	<b>Human Health Environment</b>	Personnel working in dusty areas should wear protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects. Occupational health surveillance program of the worker should undertaken periodically to observe any contractions due to exposure to dust and take corrective measures, if needed.
<b>PPs Submission: Being Complied</b> As a company policy, all personnel working in the mine site are provided with PPE. Adequate training and information on safety and health aspects are regularly provided. Pre-employment medical examination and periodical occupational health surveillance programme for the workers is being undertaken. Annual medical check-up conducted for all employees (456 nos.) by external diagnostic laboratory M/s. Aditya diagnostics, Hyderabad on 15th - 17th Oct, 2024. The records of the same are being maintained.		Date: 25/04/2025
9	<b>MISCELLANEOUS</b>	A separate Environmental Management Cell with suitable qualified personnel should be set up under the control of a Senior Executive, who will report directly to the Head of the organization
<b>PPs Submission: Being Complied</b> Separate Environment cell exists at site and corporate office with qualified personnel which are under control of Senior Executive, heading the Organization Structure attached in Annexure-8.		Date: 25/04/2025
10	<b>MISCELLANEOUS</b>	The funds earmarked for environmental protection measures should be kept in separate account and should not be diverted for other purpose. Year wise expenditure should be reported to the Ministry of Environment, Forest and Climate Change and its Regional Office located at Chennai.
<b>PPs Submission: Complied</b> During the period Oct 24 - Mar 25, MHIPL has spent 19.31 lakhs as recurring expenditure towards environmental protection measures in Mellacheruvu Mines.		Date: 21/05/2025
11	<b>MISCELLANEOUS</b>	The project authority should inform to the Regional Office located at Chennai regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.
<b>PPs Submission: Agreed to Comply</b> Presently subjected limestone mine is operational		Date: 25/04/2025
12	<b>MISCELLANEOUS</b>	The Regional Office of this Ministry located at Chennai shall monitor compliance of the stipulated conditions. The project

		authorities should extend full cooperation to the officer(s) of the Regional Office by furnishing the requisite data / information / monitoring reports.
<b>PPs Submission: Being Complied</b> MHIPL will extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data/information / monitoring reports.		Date: 25/04/2025
13	MISCELLANEOUS	The Project proponent shall submit six monthly reports on the status of compliance of the stipulated Environmental Clearance conditions including results of monitored data (both in hard copy as well as by email) to the Ministry of Environment, Forest & Climate Change, its Regional Office Chennai, the respective Zonal office of Central Pollution control Board the State Pollution Board. The Proponent shall upload the status of compliance of the Environmental Clearance conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office MoEF&CC, Chennai, the respective Zonal Office of Central Pollution Control Board and State Pollution Control Board.
<b>PPs Submission: Being Complied</b> Latest six monthly EC compliance report was submitted for the period APRIL 2024 to SEPTEMBER 2024 vide Ref No. MHIPL-MCW/ENV/2024/228, Dated 15.11.2024. Submitted reports of the same are uploaded in our company website also on : <a href="https://www.mahacement.com/environment/">https://www.mahacement.com/environment/</a>		Date: 25/04/2025
14	MISCELLANEOUS	A copy of clearance letter shall be sent by proponent to concerned Panchayat, Zilla Parishad / Municipal Corporation, Urban Local Body and the local NGO, if any, from whom and suggestion / representation, If any, were received while processing the proposal. The clearance letter shall also be put on the website of the company by the proponent.
<b>PPs Submission: Complied</b> Submitted to Grampanchayat vide Lr. No. MHIPL/ENV/GEN/2015-16/4 dated 30th July 2015.		Date: 25/04/2025
15	Statutory compliance	The State Pollution Control Board should display a copy of the clearance letter at the Regional Office, District Industry Centre and Collector's Office / Tehsildar's Office for 30 days.
<b>PPs Submission: Complied</b> --		Date: 25/04/2025
16	Statutory compliance	The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned SPCB as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall be put on the website of the company along with the status of compliance of Environmental Clearance conditions and shall also be sent to the Regional Office of the MoEF&CC Climate Change, Chennai by e-mail.
<b>PPs Submission: Being Complied</b> Environmental Statement (Form-V) for FY 2023-24 submitted vide letter No. MHIPL-MCW/ENV/2024/186 dt.19.09.2024 to TGPCB		Date: 25/04/2025
17	MISCELLANEOUS	The project authorities should advertise at least in two local newspapers of the District or state widely circulated in which the

project is located and one of which shall be in the vernacular language of the locality concerned within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and also at web site of the Ministry of Environment , Forest and Climate Change at <http://envfor.nic.in>. And a copy of the same should be forwarded to the Regional Office at this Ministry located at Chennai.

**PPs Submission:** Complied  
Environment Clearance information was published in Namaste Telangana and The New Indian Express on 01.08.2015.

Date:  
25/04/2025

### Visit Remarks

**Last Site Visit Report Date:**

N/A

**Additional Remarks:**

**Note:** This acknowledgement is as per the details submitted by project proponent. In no way is this document to be considered as conclusion on any action on the compliance of the project. This is strictly for the project proponent's reference purpose.
